### Notes:

- Figures in the above table and graph are provided from the Cafcass national case management systems (CMS and ECMS) as well as the ONS. The units of measurement are A) care applications upon receipt from the court and entry into the database by Cafcass and B) the child population (0-17) as estimated by ONS based on 2012 population projection.
- The calculated figures are multiplied by 10,000 to obtain tangible units and therefore represent the applications per 10,000 child population.
- Child population figures are provided by Local Authority and have been repackaged geographically into Cafcass service area.
- ECMS is a live system, continually updated and is subject to change when further updates are made. Data from CMS is a static snapshot on the day it ceased to be a live database, 11th July.
