

PARTNERSHIP AGREEMENT

Cafcass is a child centred organisation providing services to children and their families, promoting solutions which address the child's best interests and giving advice to the courts when they are asked to decide on the future arrangements for children in both public and private law applications. Cafcass and the Trade Unions share a commitment to the provision of high quality services and see these as most likely to be achieved through developing an organisation which values and develops its staff and recognises the essential contribution they make. Cafcass is confident that this agreement provides the basis for a continuously improving partnership that will lead to long term solutions that work both for staff, and more importantly, for children and families.

INTRODUCTION

This Partnership Agreement outlines how Cafcass and the Trade Unions will work together to promote effective partnership working on the workforce implications of policy and change programmes. It recognises respective roles and responsibilities, establishes shared values and common purpose and sets out some key principles for effective joint working. Trade Unions play a central role in giving Cafcass' staff a voice at a national and local level. The reassurance this gives to staff in that their voice will be heard is essential at this time of significant change within Cafcass. Matters for collective bargaining include those set out in s178 (2) of the Trade Union and Labour Relations (Consolidation) Act 1992 (TULRCA) except for suspension of employment which is a management decision only.

The Partnership Agreement acknowledges that Cafcass will work within parameters set by our sponsoring department when determining staff terms and conditions of employment. These are set out in the Framework Document and the Financial Memorandum.

This agreement is made between Cafcass and the Trade Unions, namely Napo, UNISON and PCS (Public and Commercial Services Union).

1. Partnership

1.1 Cafcass and the Trade Unions are agreed about the importance of encouraging active partnership and improving mutual understanding in all that we do. The specific shared aims of Cafcass and the Trade Unions are:

- To secure the performance levels which will deliver a high quality service which meets the needs of children, their families and the courts across England
 - To facilitate a positive, constructive, culture within the organisation around mutual respect and professional co-operation between all staff and stakeholders so that these shared aims can be achieved
 - To retain the commitment and engagement of all staff so that their potential is realised.
- 1.2 As partners we are determined that staff and other stakeholders in Cafcass have access to suitable and safe working environments and will work together in order to:
- Provide high quality services to children and their families, and high quality advice to the courts, within an environment of staff wellbeing and support
 - Develop safe and healthy working practices recognising the respective responsibilities for employers and employees within legislation and the organisations' overarching duty of care
 - Minimise activities which contribute to staff stress and anxiety
 - Develop a positive and supportive culture with associated practices and policies to facilitate staff engagement and wellbeing
 - Contribute individually and in teams to activities aimed at developing and continuously improving front line services, work practices and overall organisational performance.
- 1.3 Cafcass and the Trade Unions reached agreement on the implementation of the Strategic Pay Review (SPR) in December 2008. The successful joint SPR project between Cafcass and the Trade Unions successfully harmonised all staff groups to a single set of terms and conditions of employment, with some historic pay protections around annual leave and hours continuing.
- 1.4 The partnership agrees that any necessary reductions in the workforce will be managed in a structured and consistent way in line with Cafcass' Restructuring and Redundancy Policy. This policy emphasises the need to avoid the need for compulsory redundancy through natural wastage, voluntary severance and early retirement programmes. Redundancy will only ever be the final outcome once all other options have been exhausted.
- 1.5 Cafcass now participates in the Civil Service Redeployment Register scheme (CVacs). As a result, all Cafcass members of staff facing the potential risk of redundancy are eligible for consideration of a wider pool of redeployment options across the entire Civil Service. Cafcass' active participation in the scheme is an important measure, which enhances the prospects of finding suitable alternative employment. Cafcass will seek to maximise such opportunities for any colleague that

unfortunately find themselves at risk of redundancy during their employment with Cafcass.

- 1.6 In line with Cafcass' approach to training and professional development, opportunities will be made available for individuals to obtain, retain and develop the skills and abilities required in their job role. Personal development plans will also focus on supporting the development of capabilities beyond the requirements of the present role as appropriate.
- 1.7 The organisation will provide a framework of policies and procedures, which devolve reasonable autonomy and accountability to the people doing the job.
- 1.8 The partners agree that workforce representatives and managers are most likely to carry out their roles effectively if they are properly trained, as appropriate. Partnership training will be developed and strengthened to ensure that workforce representatives have the skills necessary to carry out their responsibilities effectively in line with this Partnership.
- 1.9 Cafcass therefore agrees to give the recognised union representatives reasonable paid time off to attend training courses approved by the Trade Unions and agreed by Cafcass, (dependent on the needs of the service), provided that a copy of the training programme is provided in advance. Similarly, key managers will be provided with training opportunities to ensure effective partnership working is sustained.
- 1.10 We will maintain open, regular communications and dialogue, reviewing together our progress in building effective partnerships within and across the whole organisation.
